

COVID-19 UPDATE

(Novel Coronavirus) - 25 August 2022

Dear residents and family members,

We thank you for your ongoing support as we managed the recent COVID-19 cases at our May Noonan Centre in Terang. We are pleased to inform you that the affected residents have recovered, and we have received clearance from the Public Health Unit.

The past few days have been incredibly challenging, but we remain focused on providing quality care to our residents – your loved ones. Lyndoch Living's dedicated medical and aged care team will continue to care for and closely monitor all residents, and we thank them for their professionalism and commitment.

Again, we extend our gratitude towards South West Healthcare, Terang & Mortlake Health Service, the Commonwealth and State Governments, and the Australian Defence Force for their clinical leadership and support during this time of great need.

Standard visiting guidelines can resume, and residents may leave the home. However, with COVID-19 continuing to play a significant role in our community, it is essential to remain vigilant for symptoms and not visit our homes if you have any COVID-19 symptoms.

While we attempt to contact all primary contacts of the affected residents regularly by phone, it is important to us that the families of our residents know how to get in touch regarding the health of their loved ones. Therefore, families of May Noonan Centre residents can contact the Centre on (03) 5557 8888 for more information.

As the nominated primary contact, we respectfully ask you to share this information with other family members and friends.

For additional support, the OPAN (Older Persons Advocacy Network) website has a range of support resources and information that may help <https://opan.org.au/>
We will continue to update you and the community.

Kind regards,

Jamie Brennan
Acting CEO
